***Workshop - Enjoying  
Wine, a European art de vivre***

**29th November in Bordeaux**

***by the European Union Copper Task  
Force***

The European Union Copper Task Force is delighted to invite you to its workshop event on the 29th November in the prestigious setting of the Cité du Vin in Bordeaux.

Bringing together policy-makers of the European Commission and the European Parliament, national officials, wine committees and associations, scientists and vineyards representatives, the workshop will address how wine production contribute to the development of a European Heritage, as well as how Copper acts as an essential tool for sustainable wine production.

The workshop will be conducted in French with English translation & vice-versa.

***Join us by registering here***
